### Basics of Web Design : HTML5 and CSS by Terry Felke-Morris ...

By Lisa Lopuck. The newest evolution of HTML is HTML5, which takes web design leaps and bounds forward. This generation offers an expanded set of elements and properties — allowing for cool new design and interaction possibilities. Because HTML5 also supports mobile web devices, it has rapidly become the new standard and is by now supported by all major browsers (although Internet Explorer does require that the web page include a code shim — a redundant code segment written in a way that ...
