You're feeling sad, anxious, or angry all the time, and you're thinking about seeing a therapist. But there's one problem: You don't know the first thing about therapists or whatever it is they get up to in those dimly lit offices. You ask your friends, your HMO, you thumb through the phonebook—but there are as many opinions as there are MFTs, LCSWs, and Ph.D.s waiting to add you to their appointment books. What are you, the curious and confused, to do? Don't panic! Therapy 101 can guide you through the twists and turns of the mental health maze. You'll learn about the different kinds of mental health professionals and the services they offer. You'll explore the various kinds of therapy and learn which therapies are best for which problems. Filled with curious and entertaining tidbits about the colorful history of psychology, Therapy 101 is as entertaining as it is informative. With this book in your back pocket, you'll be able to make the most of your time on the couch.

Wayne Perry has been a therapist for more than thirty years, but he still hears the same thing from beginning counselors and therapists: Yes, I know what the theory says, but what do I do with this particular client? Drawing on his decades of experience training marriage and family therapists, professional counselors, and pastoral counselors, he answers that question in the updated edition of his landmark book: Basic Counseling Techniques. He provides practical suggestions for setting up the therapy room, using audiovisual recording equipment, and conducting those first critical interviews. You'll learn how to: apply nine different sets of clinical tools; select the appropriate tool for the appropriate clinical situation; and improve how you carry out the clinical thinking process. Each chapter concludes with a "Living into the Lesson" section that allows you to participate in experiential exercises to master what you've learned. While designed for counselors and therapists in the beginning of their careers, even veterans in the field will find value in this updated edition.

Individual Counseling and Therapy, 3rd edition, goes beyond the typical counseling textbook to teach the language of therapy from the basic to the advanced. Lucidly written and engaging, this text integrates theory and practice with richly illustrated, real-life case examples and dialogues that demystify the counseling process. Readers will learn how to use winning skills and techniques tailored to serve clients—from intake to problem exploration, awareness raising, problem resolution, and termination. Students have much to gain from the text's depth, insights, candor, and practicality—and less to be befuddled by while they develop their therapeutic voice for clinical practice. PowerPoints, chapter test questions, and an instructor's manual are available for download.

BASIC AND ADVANCED COUNSELING SKILLS, International Edition provides a unique emphasis on skill assessment, helping students evaluate and improve their counseling techniques. The authors use a framework of self-assessment tools and guided observations by experienced counselors-the Skilled Counselor Training Model-to encourage students to develop an accurate appraisal of their own skill levels. The text also offers training on how to transfer counseling skills to actual counseling sessions.

Salient Features, Encompasses more than 30 advance orthopedic/manual therapy, neurological, vestibular and cardiopulmonary physiotherapy (PT) and occupational therapy (OT) techniques, In-depth but precise and concise content written in simple language that makes almost all the chapters a 15 minutes read, Designed after considering undergraduate and postgraduate physiotherapy/occupational therapy syllabus of several international universities, Equally beneficial for both students and professionals. Book jacket.

This is the first book on counselling skills to look in detail at the practical interventions and tools used to establish the therapeutic relationship. Step-by-step, the text teaches the reader exactly how to use these skills with clients to address their concerns and achieve therapeutic change. Integrative and pluralistic in approach, the text covers the key techniques from all the major therapeutic models, placing them in their historical and theoretical contexts. Techniques covered include empathic responding, experiential focusing, Gestalt, metaphors, task-directed imagery, ego state therapy, solution focused therapy, cognitive behavioral therapy, narrative therapy and self-in-representation therapy. The book: - presents each technique from the perspective of its underlying theory; - gives practical instruction on how to deliver each intervention; - provides extracts from counselling sessions to demonstrate the technique in action. This book is crucial reading for all trainees on counselling and psychotherapy courses or preparing to use counselling techniques in a range of other professional settings. It is also helpful for professionals who wish to acquire additional skills. Augustine Meier, certified clinical psychologist, professor Emeritus, Faculty of Human Sciences, Saint Paul University, Ottawa, Ontario and Founder and President of the Ottawa Institute for Object Relations Therapy. Micheline Boivin, certified clinical psychologist, Psychological Services of the Family, Youth and Children's Program at the Centre for Health and Social Services, Gatineau, Québec.

User friendly, concise, and thorough, Bradley Erford's 40 Techniques Every Counselor Should Know gives students a succinct look at the theoretical basis underlying each of 40 counseling techniques, and the common variations that can be used to ensure their successful implementation. The book identifies techniques from diverse theoretical approaches, including: Brief Counseling; Adlerian or Psychodynamic, Gestalt; Mindfulness; humanistic-phenomenological; Social Learning; Cognitive; Behavioral; and Cognitive-behavioral. Transcripts and descriptions show step-by-step how to implement the techniques, outcome research on each technique helps in determining which techniques are best for use with various populations, and multicultural implications help readers learn more about applying each technique and approach to counseling clients from diverse cultures. Added to this new edition are: new chapters on Journaling, Miller and Rollnick's motivational interviewing, self-disclosure, empathic confrontation, and strength bombardment; new sections on mindfulness-based procedures and humanistic-phenomenological approach to counseling; a number of new, edited, or expanded transcripts; and; thorough updating of sources throughout.
