An instant bestseller when first published in 1929**Biographies of twelve bold individuals from history and what they did to separate themselves from the pack. In his trademark journalist style, author William Bolitho details the lives of twelve great adventurers:Alexander the Great, Casanova, Christopher Columbus, Mahomet, Lola Montez, Cagliostro (and Seraphina), Charles XII of Sweden, Napoleon I, Lucius Sergius Catiline, Napoleon III, Isadora Duncan, and Woodrow Wilson. Bolitho elucidates both the struggles and successes that made these figures so iconic, and demonstrates how they all battled convention and conformity to achieve enduring fame and notoriety. "We are born adventurers," Bolitho writes, "and the love of adventures never leaves us till we are very old; old, timid men, in whose interest it is that adventure should quite die out. This is why all the poets are on one side, and all the laws on the other; for laws are made by, and usually for, old men."** Though his essays are nearly one hundred years old, they encompass the timeless values of perseverance, bravery, and strength of spirit that have proven to resonate with the pioneers and thought leaders of today. **"It's really quite good."** **Elon Musk** **Twelve Against the Gods** provides an interesting perspective on what drove and impeded this group of adventurers . . . A good read for anyone who's interested in history or looking to find some motivation to switch things up and break the rules. **Áine Cain, Business Insider** **"I think Twelve Against the Gods is also very appropriate for this day and age. We need adventurers, and there still are a lot of adventurers."** **China Ryall, daughter of William Bolitho**
