Presenting detailed bibliographic information on all aspects of harmony in music, with the broadest possible historical and stylistic palette, this work includes over 2,600 total citations. The sources range from treatises, dissertations, and textbooks to journal articles and book reviews, and are cross-referenced and indexed. This is the most complete bibliographic reference guide of its kind on harmony. Including harmony-related materials from the Baroque period through the present day, the work contains chapters devoted to book-length treatises and their related citations, a general bibliography comprised mostly of journal articles, and an index. Of interest to music theory instructors, undergraduate and graduate students of music theory, and researchers, this is the second in a series of music theory reference books; the first, *Orchestration Theory: A Bibliography*, was published by Greenwood Press in 1996. This work contains chapters devoted to book-length treatises and their related citations, a general bibliography containing mostly journal articles, and an index, and includes harmony-related materials from the Baroque period through the present day.

Part of the Medical Guides to Complementary and Alternative Medicine Series, this comprehensive resource offers brief, yet thorough coverage of alternative and complementary hands-on therapies, including Chiropractic, Healing Touch/Therapeutic Touch, Reiki, and massage. Focusing on manipulative techniques and their therapeutic applications to common and un-common disorders, it addresses both Eastern and Western approaches to the discipline. Ideal for comparing and contrasting the various forms of manual therapeutics, it describes the basic philosophy and theories of the different methods, as well as the techniques themselves. It also provides an overview of the principal manual therapies practiced worldwide, the theories and rationale behind them, and practice algorithms.

DISCIPLE is a program of disciplined Bible study aimed at developing strong Christian leaders. The study gives the Old and New Testaments equal time, emphasizing the wholeness of the Bible as a revelation of God. DISCIPLE draws upon the work of scholars, the personal Bible reading and study of the participant, and dynamic group discussion to aid understanding of the Bible. The first study in the program is DISCIPLE: BECOMING DISCIPLES THROUGH BIBLE STUDY, a thirty-four week overview of the entire Bible. Commitment and Time Involved Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. Study Manual Each member of the group needs a study manual and a Bible. The Bible is the text for the study and the study manual will guide group members in their study and preparation for the weekly group session. The study manual also includes suggestions for individual and study-related activities. Space is provided for taking notes while reading Scripture, for recording thoughts and questions arising out of daily study, and for notes during the weekly group session. The titles of the sessions along with theme words and theme verses, and major persons, events, and topics will set the sequence of the biblical story in the minds of the participants. The principal Scripture for each session follows the chronological movement of the biblical story. We recommend the New Interpreters Study Bible More Questions?
