Natural Hazards:
Earth Processes as
Hazards, Disasters
and Catastrophes,

Online Library Hazard City

Fourth Edition, is an introductory-level survey intended for university and college courses that are concerned with earth processes that have direct, and often sudden and violent, impacts on human society. The text integrates principles of geology, hydrology, meteorology,

Online Library

Hazard City

climatology, property

oceanography, soil
science, ecology and
solar system

astronomy. The book
is designed for a
course in natural
hazards for non-
science majors, and a
primary goal of the
text is to assist
instructors in guiding
students who may
have little background

Online Library

Hazard City

in science to understand physical earth processes as natural hazards and their consequences to society. Natural Hazards uses historical to recent examples of hazards and disasters to explore how and why they happen and what we can do to limit their effects. The

Online Library

Hazard City

text's up-to-date

coverage of recent

disasters brings a

fresh perspective to

the material. The

Fourth Edition

continues our new

active learning

approach that

includes

reinforcement of

learning objective with

a fully updated visual

program and

Online Library

Hazard City

pedagogical tools that highlight fundamental concepts of the text.

This program will provide an interactive and engaging learning experience for your students. Here's how:

- Provide a balanced approach to the study of natural hazards:
- Focus on the basic earth science of hazards as well as

Online Library

Hazard City

roles of human

processes and effects
on our planet in a

broader, more

balanced approach to

the study of natural

hazards. Enhance

understanding and

comprehension of

natural hazards:

Newly revised stories

and case studies give

students a behind the

scenes glimpse into

Online Library

Hazard City

How hazards are evaluated from a scientific and human perspective; the stories of real people who survive natural hazards, and the lives and research of professionals who have contributed significantly to the research of hazardous events.

Strong pedagogical

Online Library Hazard City

tools reinforce the text's core features: Chapter structure and design organizes the material into three major sections to help students learn, digest, and review learning objectives.

Society that either
increase or diminish
our level of

vulnerability to the
impacts of hazards
and discusses the
role of the emergency
manager in how these
choices are made and
