On Talking, Kahilil Gibran - 1883-1931. And then a scholar said, Speak of Talking. And he answered, saying: You talk when you cease to be at peace with your thoughts; And when you can no longer dwell in the solitude of your heart you live in your lips, and sound is a diversion and a pastime. And in much of your talking, thinking is half murdered. For thought is a bird of space, that in a cage of words may indeed unfold its wings but cannot fly.

Kahilil Gibran on Good & Evil Of the good in you I can speak, but not of the evil. For what is evil but good tortured by its own hunger and thirst? Verily when good is hungry it seeks food even in dark caves, and when it thirsts it drinks even of dead waters. You are good when you are one with yourself.

Kahilil Gibran on Buying & Selling To you the earth yields her fruit, and you shall not want if you but know how to fill your hands. It is in exchanging the gifts of the earth that you shall find abundance and be satisfied. Yet unless the exchange be in love and kindly justice, it will but lead some to greed and others to hunger.

Kahilil Gibran on Religion Have I spoken this day of aught else? Is not religion all deeds and all reflection, And that which is neither deed nor reflection, but a wonder and a surprise ever springing in the soul, even while the hands hew the stone or tend the loom? Who can separate his faith from his actions, or his belief from his occupations?

Kahilil Gibran on Time You would measure time the measureless and the immeasurable. You would adjust your conduct and even direct the course of your spirit according to hours and seasons. Of time you would make a stream upon whose bank you would sit and watch its flowing. Yet the timeless in you is aware of life's timelessness.

The greatest need in the world today is for far more people to be developed enough to bring forth a world that works for all. Organizations need people who are capable of facing the challenges of an uncertain global economy; communities need people who can strengthen institutions in the places they live; societies need people with the capacity to address the urgency and complexity of the problems we face in the world today. The authors propose that the places we work must become the context for becoming more of who we are meant to be as highly aware, fully functioning human beings, at the same time that we accomplish the goals of the enterprise. The book explains what is meant by transformative work; highlights examples of where it is occurring around the world; and offers ideas about how workplaces can benefit from equally valuing and focusing on the purposes of their work, the purposes of the people who work there, and the purposes of their communities and the larger society.

An outline of the core principles and strategies required to restore the credibility of the global finance industry Since 2008, the global financial industry has lurched from crisis to crisis, calamity to calamity, resulting in an epic loss of public trust in banking and financial institutions. Rebuilding Trust in Banks argues that this series of disasters have usually been the result failures of leadership and governance, combined with unenforced systems of checks and balances. Often, leaders lose their way, believing their own hype and buying into their own propaganda. The more successful these leaders are initially the greater their self-confidence grows along with the certainty that they're right. The result is a dangerous hubris with no countervailing power to stop or change reckless, unethical, or self-interested strategies. This book offers a solution, with useful benchmarks for corporate governance and a global perspective. Features effective best practices for ensuring good corporate governance and responsible leadership in banking and finance Written by a renowned expert in corporate governance with more than 40 years of experience, particularly in Asia Intended for corporate leaders and board members in financial companies, as well as regulators, advisors, and students If banks and other financial institutions truly want to rebuild the trust they once enjoyed, this practical and prescriptive guide offers effective best practices that can—and should—be widely implemented throughout the industry.

The youngest Boomers are not quite fifty; the oldest have already turned sixty-five. A generation that started out in the 1960s, determined to be young forever, is now asking what the point is of growing old. Convinced they were special, Boomers discounted authority and charted their own course. They believed they could make the world better by pursuing freedom. The legacy of the Boomer experiment is becoming evident. Freedoms that were new when Boomers were young are now taken for granted, and we are living "after freedom." Are our freedoms real or illusory? Can we count on anything to be certain? Do virtue and character matter? In a secular age can we recover respect for the sacred? The time is ripe for Boomers to reconsider those good things in the past they refused to honor, to voice their blessings for generations who will shape the future, and to reclaim conviction as they stand firm and dare to say, "This is what I believe."

Shares advice on the changing male body and the challenges of growing up, from shaving and vocal changes to acne and interpersonal relationships.

Scared, solitary Derek Gaunt has separated from his Pack, and is truly a lone wolf. With no family he answers to no one; but is fiercely loyal to a chosen few. So, when several of those close to him are murdered, he'll stop at nothing to hunt their killer through the magic-drenched streets of Atlanta. Never one to be left on the sidelines, equally determined—some might say stubborn—Julie Lennart-Olsen soon joins in his pursuit; and what began as revenge turns into a race to save the city. Their search pits them against powers they never imagined and magic so old, it predates history. It may cost Derek his life, but there are things for which even he would risk everything.

A repackaged edition of the revered author's classic work that examines the four types of human love: affection, friendship, erotic love, and the love of God—part of the C. S. Lewis Signature Classics series. C.S. Lewis—the great British writer, scholar, lay theologian, broadcaster, Christian apologist, and bestselling author of Mere Christianity, The Screwtape Letters, The Great Divorce, The Chronicles of Narnia, and many other beloved classics—contemplates the essence of love and how it works in our daily lives in one of his most famous works of nonfiction. Lewis examines four varieties of human love: affection, the most basic form; friendship, the rarest and perhaps most insightful; Eros, passionate love; charity, the greatest and least selfish. Throughout this compassionate and reasoned study, he encourages readers to open themselves to all forms of love—the key to understanding that brings us closer to God.

The Storm gives definitive expression to many of Gibran's key themes: the injustice meted out to the poor and the weak; the beauties of nature needlessly destroyed by man; and the innocent purity of young love, so often crushed underfoot by society.

Introducing us to the most famous poems of the Lebanese poet Kahilil Gibran, Osho takes the reader into a mystical world, addressing essential issues in everybody's life. The famous verse that gives the title to this book is about "love"—but not the ordinary love we know from novels and movies. Speak to us of Love gives a taste of a contemporary mystic at work, trying to disrupt our dreams, illusions, and the state of unconsciousness that prevents us from enjoying life to the fullest. This is about and for the millions of people in the world who have killed their love with their own hands, and who are now miserable. They never wanted to kill it, there was no intention to kill their love, but in their unconsciousness they started possessing. Husbands possess their wives, wives possess their husbands, and parents possess their children. Teachers are trying in every possible way to possess their students. Politicians are trying to possess countries. Religions are trying to possess millions of people and control every aspect their lives. This book shows that life can only thrive in freedom. Love never allows anyone to possess it, because love is our very soul. For Osho, the basis of all our neuroses or psychoses is simple: our souls are not nourished. Love, the basic nourishment, is missing. Osho comprehensively trounces the so-called religious and philosophical approaches to life. All that is of worth is to be found, not in the extraordinary, but in the ordinary; not in fantastical ideas of the "other world" beyond death, but in this very world that we find ourselves in here and now. In short, this book shows that making a simple yet utterly basic shift in our lives will awaken the silence in our beings and bring joy into our every moment.

Is what you believe about marriage getting in the way of a GREAT relationship? When you've put into practice all the usual advice, but your marriage still falls short of the intimacy and joy you want, what then? Are patience and perseverance your only hope for a better relationship? Author and speaker Sheila Wray Gregoire says, "Absolutely not!" The solution to a happier relationship is not found in being a more patient, more perfect wife, but in taking responsibility for what you can do—and especially for how you think about your marriage. She challenges you to replace pat Christian answers with nine biblical truths that will radically shift your perspective on your husband, your relationship, and your role in God's design for marriage, including... My Husband Can't Make Me Mad - Being One Is More Important Than Being Right - Having Sex Is Not the Same as Making Love With humor and honesty, Sheila invites you to believe that God wants to bring oneness and intimacy to your marriage—and challenges you to partner with Him in that process by changing the way you think.

Spiritual Intelligence refers to the intuitive knowledge of the self, others, situations and techniques to achieve the desired objectives. Hence it can be called the soul of all intelligences. Spiritual Intelligence enhances our power to inspire others by transforming their souls in such a way that their desires and aspirations are aligned in a single direction. Soul is beyond all reason and intellect. It is, in fact, the source of mind and intellect. One who knows his soul knows the universe, since soul is nothing but the microcosm of the universe. This book explains this body-soul continuum and suggests practical steps to evolve through the body-senses-mind-intellect to reach our soul. Welcome to this new path of spiritual evolution.
