Montgomery is missing from RCOG's Assisted Vaginal Birth guideline

Written by two experienced RCOG examiners, both of whom have been involved in the development of the new Part 3 MRCOG examination, this book is essential reading for any trainee preparing to sit the exam. The authors clearly describe the breadth and depth of the curriculum modules and the professional behaviours that will be assessed in the five clinical skills domains. The text includes written examples of every module, links to eight videos showing candidates attempting four real Part 3 tasks, examiners' comments, and a detailed discussion of each example. The content will help candidates understand what is required to pass the examination and how to demonstrate their knowledge and skills to best effect. The

Acces PDF Mrcog Guidelines

book will also be useful for trainers preparing their trainees for the new exam. Based on the principles of good medical practice, there are practical tips here for doctors and obstetricians at all levels.

Get Through MRCOG Part 1, Second Edition, provides a selection of questions covering the basic and applied sciences relevant to the clinical practice of obstetrics and gynaecology and mapped to the RCOG Knowledge Areas in the MCQ style. With appropriate explanations of the answers and references to the relevant guidelines, this is a definitive resource for those taking the MRCOG Part 1 examination.

This title includes Foreword by David Taylor, Professor and Vice Dean of Leicester Medical School. Preparing for the Part 2 MRCOG examination remains a daunting and complex task, particularly as learning and revision often need to fit around clinical commitments. Much has been written about how to prepare for and pass exams, yet it remains surprising how often well-read candidates provide unsatisfactory answers in areas which they know well. Clearly, a sound understanding of the topic area is essential, but deeper knowledge also increases uncertainty, and the vast developments in the field mean that proficiency in all areas is next to impossible. Thus a critical point for postgraduate candidates, who more often than not will prepare for the examination in isolation, is to develop a real understanding of what the examination is meant to assess...This revision aid in obstetrics and gynaecology is based on the Extended Matching Question format (EMQ). It contains forty-two questions of varying degrees of difficulty, along with detailed answers. "MRCOG Part 2 Essential EMQs" is an indispensable study and revision aid for postgraduate medical students preparing for Part 2 of the Membership of the Royal College of Gynaecologists (MRCOG) examination or equivalent. "The number of published revision aids including this question format in postgraduate Obstetrics and Gynaecology remains limited. With this

Acces PDF Mrcog Guidelines

book we wanted to produce a comprehensive selection of EMQ, covering broad areas relevant to the speciality, which would be useful those preparing for postgraduate examinations at Part 2 MRCOG level or equivalent." - Marwan Habiba, Andrea Akkad, Justin Konje.

Volume 4 MRCOG Comprehensive preparation Manual Volume 4, is a Perfect revision complementing the preparation with Volumes 1,2 and 3 for MRCOG part 2 examination of the Royal College of Obstetricians and Gynaecologists and help other doctors who wants to update their knowledge with British Practice of Obstetrics and Gynaecology (O&G). Care was taken in preparation of this volume in order to cover wider aspects of MRCOG examination requirement and to facilitate candidates to handle questions in various subspecialties of O&G and daily practice in United Kingdome. Special consideration was given to overseas doctors taken British examination and the volume has covered subjects which have legal and social implications. Most question are based on RCOG guidelines, NICE guidance and GMC publications in addition to guideline of specialised societies such as British Fertility, ESHRE, British Gynaecology Endoscopy societies . I hope you will find this volume one of the important tools to lead for more knowledge which you require for the daily O&G practice and MRCOG examination.

Get Through MRCOG Part 2: SBAs provides 3 exams' worth of questions mapped to the RCOG syllabus in the newly introduced SBA style. With detailed explanations and relevant references to guidelines, this is the definitive resource for those taking the MRCOG Part 2 examination.

This book is a practical guide to obstetrics and gynaecology for trainees preparing for the MRCOG Part 2 examination. Beginning with a brief overview of general principles, the rest of the book is

Acces PDF Mrcog Guidelines

clearing set into two sections – Obstetrics, and Gynaecology. Each of these sections is further divided to discuss the diagnosis and management of numerous disorders within each sub-specialty. The book has been written in accordance with the current MRCOG Part 2 curriculum and includes the very latest RCOG Green-top guidelines and NICE guidelines. Additionally, this comprehensive textbook features the latest statistics on maternal and perinatal mortality in the UK, published by MBRRACE-UK in December 2016. Key Points Practical guide to obstetrics and gynaecology for MRCOG Part 2 candidates Written in accordance with current MRCOG Part 2 curriculum Includes latest RCOG Green-top guidelines and NICE guidelines Features latest statistics on maternal and perinatal mortality from MBRRACE-UK

This comprehensive question-and-answer resource covers all aspects of the curriculum for the Part 2 MRCOG examination. Candidates are given the opportunity to practise the Single Best Answer question style, to cover the content they will encounter in the examination and to assess their knowledge. As consultants actively engaged in the writing of the Part 2 Single Best Answers, the authors and editor have provided directly applicable questions. Candidates to review the syllabus in an organised, systematic manner, with comprehensive explanations for each answer. This title also includes new sections on ethics, training, audit and clinical governance. Mock exams are also available online to familiarise candidates with the real-life examination. The detailed answers, evidence and comprehensive list of references offer an excellent training and reading source for all candidates preparing for the Part 2 MRCOG examination.

Modelled after the current MRCOG curriculum, the new edition of this bestselling book provides all the information a specialist registrar in obstetrics and gynaecology or senior house officer needs during training or when preparing for the MRCOG examination.

Obstetrics & Gynaecology: An Evidence-based Text for MRCOG covers the latest professional guidelines and developments in obstetrics and gynaecology and continues to provide an easily accessible source of information for those practising as specialists. The book's subsections within obstetrics and gynaecology are divided in line with the RCOG trainee logbook. The text is consistently structured throughout to ensure ease of reference with standardized headings including definitions, incidence, aetiology, investigations and management. Focusing on standards and an evidence-based approach, each chapter includes material on MRCOG standards in an easy-to-consult format. Information on evidence-based medicine is also included to provide a rapid summary of the evidence relating to the interventions and treatments discussed. This text will continue to be an invaluable companion to the higher training of obstetricians and gynaecologists and a useful ready reference for those in established practice."

This book provides a comprehensive overview of clinical intrapartum care, with an emphasis on a pragmatic approach which promotes the necessary vigilant care while also supporting the wishes of the pregnant woman who wants minimal interference. This second edition has been thoroughly updated to reflect current practice and developments in the field since publication of the first edition, with six new chapters added on topics that are of increasing importance: improving intrapartum care, lower genital tract trauma, emergency obstetric hysterectomy, acute uterine inversion, disseminated intravascular coagulation and acute tocolysis. The book is primarily designed to provide a comprehensive summary for candidates preparing for the Part 2 MRCOG examination, and as such covers the RCOG curriculum for intrapartum care. It is also a valuable guide for all healthcare professionals working in the field, including trainees, consultants and midwives.

The examination for Membership of the Royal College of

Acces PDF Mrcog Guidelines

Obstetricians and Gynaecologists (MRCOG) remains one of the most internationally recognised postgraduate examinations in the specialty. Over the years, the examination has evolved in keeping with changes in medical education; the Part 3 examination now consists of 14 tasks, each covering one of the 14 core modules in the curriculum and assessing specific skills which may include all or some of Information Gathering, Communication with Patients and Families, Communication with Colleagues, Patient Safety, and Applied Clinical Knowledge. This invaluable resource consists of analyses of different aspects of what is being tested, with general advice on how to prepare for the examination and discussion of the reasons why trainees fail the examination. There follow four sample 'papers' of tasks; in each of them, attempts have been made to cover all 14 modules in the core curriculum. There is also an additional paper with random tasks to help with preparation.
