Under summer skies, New York Times bestselling author Sherryl Woods evokes family, friendship and heartfelt emotion With her two younger sisters heading for the altar, will Samantha Castle exchange old dreams for new ones? Lately she'd rather be on the North Carolina coast with family than in New York with agents and actors. Though she vows not to let her teenage crush on Ethan Cole influence her decision, it's hard to ignore her feelings for the local war hero. Ethan lost more than his leg in Afghanistan. He lost his belief in love. Even being surrounded by couples intent on capturing happily-ever-after won't open this jaded doctor's heart. It's going to take a sexy, determined woman—one who won't take no for an answer.

For readers who like historical fiction with little romance. It is a life built on secrets, lust, and lies, and Sydnee Sauveterre is at the center of the charade. Used as a source of income at a stand on the Natchez Trace, Sydnee escapes to start a new life in Louisiana. Gifted with visions and a knowledge of Hoodoo, she must find her way through the quagmire of danger and deceit that is 19th Century New Orleans. She bans together with four friends to create an illusion within the elegant, high society of the Louisiana Creole. It is a risky charade meant to fulfill all of their secret desires, and Sydnee gambles everything, including love, to lead this double life. Will she survive the grand masquerade?"Once again Amanda Hughes splashes the pages with adventure and love stories about audacious women in the 18th and 19th Century. Her page-turning tales will keep you on the edge of your seat as you take wild rides through passionate and dazzling periods of history."

Hannah and her sister, Megan, have been given the trip of a lifetime. They are cruising the Mediterranean Sea. Starting at Rome, they are working their way counter-clockwise through Florence, Monte Carlo, Barcelona, Sardinia, Sicily, and Pompeii. Life is their playground. And then Hannah meets Brandon. Brandon is strong, intelligent, loyal, and everything Hannah could possibly dream of in a man. He has also just walked in on his fiancée in bed with his best friend. Hannah is willing to wait as long as it takes for him to work his way through this betrayal. And then all Hell breaks loose ... Half of the author's proceeds of all Ophelia Sikes books benefit battered women's shelters. Italian Nights presents all five novellas in the Italian Nights series in one complete set! It includes the novellas Love's Heat, Carved Into My Heart, Lost in Darkness, Love's Labyrinths, and Flames and Tears. Due to the strong sexual content and adult situations, this book is recommended for readers aged 17+. The first four novellas have cliff-hanger endings, which lead to the final novella with a happily-ever-after. I come from a family which adores Italy. My parents strive to go every year, and I've been several times there myself. I took this very cruise through the Mediterranean Sea and wrote my notes while I traveled. The sights, sounds, aromas, and atmosphere of this exotic region are just as I personally experienced them. If you haven't been to Italy, Monaco, Spain, or France, I highly recommend it. Even if you have to save a little each year to make it a trip of a lifetime, it is well worth it. These locations are the cradle of civilization. The art, food, and culture created here resonate throughout time. In the meantime, enjoy this virtual vacation written from my first-hand experiences!

Balanced, comprehensive survey of the critical questions involved in studying the four Gospels In this book, through a distinctive evangelical and critical approach, Michael Bird explores the historical development of the four canonical Gospels. He shows how the memories and faith of the earliest believers formed the Gospel accounts of Jesus that got written and, in turn, how these accounts further shaped the early church. Bird's study clarifies the often confusing debates over the origins of the canonical Gospels. Bird navigates recent concerns and research as he builds an informed case for how the early Christ followers wrote and spread the story of Jesus -- the story by which they believed they were called to live. The Gospel of the Lord is ideal for students or anyone who wants to know the story behind the four Gospels. Watch an interview with Michael Bird from our Eerdmans Author Interview Series:

How quickly can you compute the remainder when dividing by 120143? Why would you even want to compute this? And what does this have to do with cryptography? Modern cryptography lies at the intersection of mathematics and computer sciences, involving number theory, algebra, computational complexity, fast algorithms, and even quantum mechanics. Many people think of codes in terms of spies, but in the information age, highly mathematical codes are used every day by almost everyone, whether at the bank ATM, at the grocery checkout, or at the keyboard when you access your email or purchase products online. This book provides a historical and mathematical tour of cryptography, from classical ciphers to quantum cryptography. The authors introduce just enough mathematics to explore modern encryption methods, with nothing more than basic algebra and some elementary number theory being necessary. Complete expositions are given of the classical ciphers and the attacks on them, along with a detailed description of the famous Enigma system. The public-key system RSA is described, including a complete mathematical proof that it works. Numerous related topics are covered, such as efficiencies of algorithms, detecting and correcting errors, primality testing and digital signatures. The topics and exposition are carefully chosen to highlight mathematical thinking and problem solving. Each chapter ends with a collection of problems, ranging from straightforward applications to more challenging problems that introduce advanced topics. Unlike many books in the field, this book is aimed at a general liberal arts student, but without losing mathematical completeness.
