The third side possesses the power of peer pressure and the force of public opinion. It is people power. It uses the power of persuasion. It influences the parties primarily through an appeal to their interests and to community norms. In every conflict, there usually exists not just one possible third party but a multitude.

The Third Side | What is the Third Side?

The Third Side is the community - us - in action protecting our most precious interests in safety and well-being. It suggests ten practical roles any of us can play on a daily basis to stop destructive fighting in our families, at work, in our schools, and in the world. Each of our individual actions is like a single spider web, fragile perhaps but, when united with others, capable of halting the lion of war.

Using new archaeological and anthropological evidence, the author explains how to resolve conflicts in the home, work, and the world by identifying the "Third Side" of seemingly black-and-white arguments. Originally published as Getting to Peace. Reprint.

Describes a method of negotiation that isolates problems, focuses on interests, creates new options, and uses objective criteria to help two parties reach an agreement

The forest animals have a problem--the watering hole isn't big enough. Emo, a bear cub, and his friend, a bird named "Chickie," know there must be a way to stop the fighting. Together with the forest animals, Emo and Chickie explore ways to work things out in a positive, constructive way. Skills that everyone can learn.

We all want to get to yes, but what happens when the other person keeps saying no? How can you negotiate successfully with a stubborn boss, an irate customer, or a deceitful coworker? In Getting Past No, William Ury of Harvard Law School's Program on Negotiation offers a proven breakthrough strategy for turning adversaries into negotiating partners. You'll learn how to: • Stay in control under pressure • Defuse anger and hostility • Find out what the other side really wants • Counter dirty tricks • Use power to bring the other side back to the table • Reach agreements that satisfies both sides' needs Getting Past No is the state-of-the-art book on negotiation for the twenty-first century. It will help you deal with tough times, tough people, and tough negotiations. You don't have to get mad or get even. Instead, you can get what you want!

The third side of a coin is essentially the one that connects the other two sides: the head and the tail. This analogy is used throughout the book to emphasize the importance of "mastery learning" in any profession, such as medicine, law, or engineering. Mastery learning is the essential outcome of uniting the two flat faces of a coin with the help of the third circular side. In any profession, the two flat faces of the coin are theory and practice, and the third side is the testing. The author gives examples from his more than fifty years of experience in engineering practice and engineering teaching to prove that mastery learning is essential. In the very rapidly changing pace of technology today, any curriculum that ignores mastery learning is bound to produce obsolete engineers.

The international community invests billions annually in thousands of projects designed to overcome poverty, stop violence, spread human rights, fight terrorism and combat global warming. The hope is that these separate projects will 'add up' to lasting societal change in places like Afghanistan. In reality, these initiatives are not adding up to sustainable peace. Making Peace Last offers ways of improving the productivity of peacebuilding. This book defines the theory, analysis and practice needed to create peacebuilding approaches that are as dynamic and adaptive as the societies they are trying to affect. The book is based on a combination of field experience and research into peacebuilding and conflict resolution. This book can also be used as a textbook in courses on peace-building, security and development. Making Peace Last is a comprehensive approach to finding sustainable solutions to the world's most pressing social problems.

This is the perfect time to go back to the basics, unlearn outdated thinking, and relearn new norms. Especially, we need to sharpen our ability to see things from new perspectives. This book will do that. We're not looking from another perspective anymore. We're looking back on how we think about thinking. How we view and learn things. "Rethinking about Thinking"

REALITY: LIFE GETS UGLY MEET A boy whose syndrome leaves him little in life A man who chooses the right path too late A woman forgotten by God Their journeys are different. Their sufferings are unique. They all seek a reason to go on. Heart pounding, heart wrenching, heart tugging-raw and realistic. But these short stories, and many more, show a third side of the coin. With the gift to find real meaning in a story, author Sarah Elisabeth Sawyer creates tales to stir the heart and evoke deep, often buried emotions. Not one to shy away from tragedy or crisis of faith, she explores human conditions through engaging short stories. "Sarah's writing is so clear and evocative that there are moments I forget I'm reading and just experience the story."-Rachel Phelps, multi award-winning author
