All students will be required to maintain a laboratory notebook. The notebook will be used for the recording of laboratory data and calculations, and will be critically important for writing your lab reports. The purpose of a laboratory notebook is to allow anyone with some biochemical knowledge to understand exactly what you did. You need

One of the highlight of the present manual is that it covers the practical aspects of different biochemical techniques for undergraduate and postgraduate students of life sciences. The manual is divided into seven main sections, each of which subdivided into chapters. First section deals with buffers, pH and solution
