certain responses. Normative explanations are (perhaps among other things) justifications: at least some explanatory reasons why a normative fact holds must provide normative reasons for certain responses, or be features in the light of which those responses are apt or fitting or the like. If that is right, then the aim of

NORMATIVE EXPLANATION AND JUSTIFICATION

However we explain their normativity, normative reasons should be capable of motivating agents to act—though of course they may often fail to do so. Therefore, any account of normative reasons must offer a plausible explanation of the relationship between the normativity of reasons and the capacity that reasons have to motivate agents to act ...

Introducing a distinction between standard and non-standard reasons, based on the ability to directly follow them, the chapter uses it to solve the 'right kind of reason' and the Toxin Puzzle, and to explain the difference between practical reasons and adaptive reasons, of which epistemic reasons are an instance. It then argues that normativity cannot be explained by its relationship to ...

Reasons: Practical and Adaptive - Oxford Scholarship

Reasons for action are traditionally divided into "motivating reasons," which explain why someone did something, and "normative reasons," which concern why she should (or should not) have done it. We explore various positions concerning both types of reason, and the relations between them. We discuss Davidson's causal account of action, reasons internalism and externalism ...

Motivating Reasons and Normative Reasons - Oxford Handbooks

Suppose the facts that p and q give X a good reason to do A, i.e., they are considerations that 'count in favour of' X's doing A, or premises that license the conclusion 'X should (has reason to) do A'. Then the Normative/Explanatory Nexus holds that the facts that p and q can also be the reason for which X is doing A.

Types of reason. In philosophy, it's common to distinguish between three kinds of reason. Normative or justifying reasons are often said to be "considerations which count in favor" of some state of affairs (this is, at any rate, a common view, notably held by T. M. Scanlon and Derek Parfit).. Explanatory reasons are considerations which serve to explain why things have happened—they are ...

Reason (argument) - Wikipedia

By contrast, a normative reason X itself is what actually justifies such a psychological state aimed at X as its intentional content. This account seems to do what Wallace wants without tying the distinction to the difference between first- and third-personal points of view. Chapters IV and V then defend a realist account of normative reasons ...
