Solidification Processing: Crystalline and Glassy Alloys deals with
solidification theory and its application to eutectic processing of
crystalline and glassy alloys. The underlying theme is an analysis
of the different ...

Solidification Processing | Download eBook pdf, epub ...

Interaction between theory and practice in the field of
solidification has been strong in recent years, to the great
benefit of both. Solution of important problems has required
conceptualizing on greatly different size scales simultaneously,
and has also required extensive experimentation to suggest and
justify suitable approximations for theoretical analyses. Some
areas of solidification ...

Solidification Processing by Merton C. Flemings

Prof. Flemings' long career of research has had as its main focus
the solidification of metals, and to a lesser extent solidification of
ceramics, semiconductors and superconductors. His work
continues to have broad industrial application, particularly in the
foundry and metal producing industries.

Merton C. Flemings | MIT DMSE

This paper reviews the progress of solidification processing of
cast metal matrix composites over 50 years since their original
discovery, which was first published in 1969. Current use of
metal matrix composite components in automotives, railways,
space, computer hardware, and recreational equipment are
presented. Some cast metal matrix composites which are
discussed include aluminum ...
