The Math Wars ALAN H. SCHOENFELD During the 1990s, the teaching of mathematics became the subject of heated controversies known as the math wars. The immediate origins of the conflicts can be traced to the "reform" stimulated by the National Council of Teachers of Mathematics' Curriculum and Evaluation Standards for School Mathematics.

The Math Wars - Math is More

The math wars continue to this day. Traditionalist math professors continue to support the teaching of algorithms only. Math education professors are more likely to support reform measures that teach more concrete concepts followed by constructing the algorithm so that understanding takes place.
